

I find the abortion program (DEFENDING LIFE) on EWTN the global catholic network offensive. They show pictures of abortion and medical pictures and inspire hate on those who have this legal procedure. They spread fear on those who apose their views and inspire violence. They tell people to vote one way instead of another and this should be illegal if its not already. I viewed this program at my fathers house and my children were crying and this program should warn of its horrible images and mean spirited preists. This should not be on public TV.
